# Financial Workflow

**Three signatures before any check | every gift on the record**

## 1 File the expense report

**Any member**

*Active Desks > Member Desk > Open my expenses | phone Expenses*

New expense report: link the event or meeting, add each receipt line, submit. Status: Submitted.

## 2 Payment request

**Financial Secretary**

*Active Desks > Financial Secretary Desk*

Check the receipts and click Verify & Sign Expense. The first signature.

## 3 Ledger coding

**Treasurer**

*Active Desks > Treasurer Desk*

Assign the general ledger account (it decides the budget line), then Categorize & Lock Expense.

## 4 Final release

**Grand Knight**

*Active Desks > Grand Knight Desk*

Final Release for Payment. The report is Approved and released to the Treasurer.

## 5 Pay by check

**Financial Secretary or Treasurer**

*Active Desks > Treasurer Desk > Disbursed Check Registry*

Type the check number and Record Payment Made by Check. Status: Reimbursed.

### Guards

- Nobody signs, codes or releases his own report.
- Collusion Guard: the Treasurer cannot code a report he ordered; the Grand Knight cannot release one he signed as FS or Treasurer.
- Council Admins may open the three desks but do not sign.

### Sent back?

- Leadership Auditing Queue (Financial Secretary Desk): Return to member with a reason (required).
- The report goes back to Draft and its signatures are cleared; the member fixes it and submits again.

### Money coming in

- Phone Collect tab: Start collecting for event, then Record donation (cash, card, or check with its check number).
- Officers see every gift in Finances > Donations History.
- FS and Treasurer post deposits and transfers in the General Ledger.
- Revenue splits: coded once; the chart-of-accounts split shares the parish part.

### Charity grants going out

- After the council votes a grant, the FS or GK endorses it in the FS/GK Compliance Endorsements folder.
- Treasurer (or FS, if he did not endorse it): Pay approved request, one check for the approved amount.
- The grant's budget line is charged; the Shepherd cannot pay it.
