Group Cross-Desk Script

The 40-minute Synchronized Group Workflow: live records passed from desk to desk

St. Mary's Cathedral Council 15295

How to use this packet: work through each step in order. Tick the box when the step is done and the result matches. Write anything surprising in the Notes field under the step. The fields can be filled in on screen in any PDF reader, or on paper.

Pilot logins (the password is on the facilitator's board)

Persona	Login	Seat
Grand Knight	gk_user@stmarys.org	Grand Knight (GK User)
Financial Secretary	fs_user@stmarys.org	Financial Secretary (FS User)
Treasurer	treasurer_user@stmarys.org	Treasurer (Treasurer User)
Deputy Grand Knight	dgk_user@stmarys.org	Deputy Grand Knight (DGK User)
Council Historian	historian_user@stmarys.org	Council Historian (Historian User)
Member Alpha	member_alpha@stmarys.org	Member (Member Alpha)
Member Beta	member_beta@stmarys.org	Member (Member Beta)

The 105-minute session: the gavel strikes at 6:15 PM

Clock	Minutes	Phase
6:15 - 6:20 PM	5	Introduction: the gavel strikes at 6:15 PM. The facilitator welcomes the room, hands out the scripts, and every persona signs in to the web portal on his laptop
6:20 - 6:40 PM	20	Individual Desk Coordinate Phase (mobile and web): the officers work their scripts (INDIVIDUAL_PILOT_SCRIPTS.pdf) on the laptops; Member Alpha and Member Beta work theirs on the phone app; no step waits for another persona

6:40 - 7:20 PM	40	Synchronized Group Workflow (web only): the three seated flows of GROUP_CROSS_DESK_SCRIPT.pdf - the expense pipeline, the charity request and the Flagged Hours Review gate - each persona at his own laptop
7:20 - 7:40 PM	20	Open Exploration: each persona opens the other folders of his own desk and tries the work his office would do next month; the facilitator answers questions
7:40 - 8:00 PM	20	Listening Session: each persona fills in the Attendee Feedback Questionnaire, then the facilitator hears every persona in turn and writes down what he says
	105	**Total**

The pilot data: the Parish Parking Event (three weeks moved to the pilot day, six Lot attendants shifts, $400.00 collected the first weekend), expense reports 14-23 waiting on the officers' desks, charity requests on the vetting board, three prayer intentions and two volunteer time entries held for review. The data is on the hub laptop: a fresh vault (npm run hub:archive, then npm run dev:pilot) restores it, and reloading a browser or a phone app changes nothing. The individual and group phases run on the same vault: the group flows use the seeded records the individual scripts leave untouched.

Compiled 2026-11-02.

Before you start

Seat the seven personas around the table, each signed in to the web portal on his own laptop. Nobody changes seats, uses another laptop or signs out during the session. Every laptop works on the one hub database, so a record saved on one laptop is on every laptop at once. Every officer works the seeded record waiting at his own gate, and the members file their new records on their own laptops. The facilitator reads each flow's context aloud; the persona named in bold at each step does it on his own laptop while the room follows along. Every web step starts from the Active Desks row; a module is a folder on its desk's left filing spine that opens on the Desk Blotter.

Facilitator preparation (before the attendees arrive)

1. On the hub laptop, start a fresh vault: stop the portal, run npm run hub:archive, then npm run dev:pilot and npm run dev:mobile:pilot. hub:archive moves the last session's vault into packages/backend/data/archive and deletes nothing. Every laptop opens the portal at the address that dev:pilot prints, and Member Alpha and Member Beta scan the phone QR code. All devices work on the one hub database, so every device starts from the same seeded records.
2. To keep adding to the same records from one session to the next, skip npm run hub:archive. The vault keeps every record, meeting log and check photo, but the seeded records that the scripts use are then already worked.
3. On the Deputy Grand Knight's laptop, signed in as DGK User, open Governance > Recurring Meetings and click Populate the year for 2026-2027 once. Flow 2 needs a Monthly meeting at least 10 days away to place the request on.
4. Hold the session while the Parish Parking Event runs. Its three weeks follow the calendar: on load, the app moves the event by whole weeks so the pilot day is the week after its first weekend, and the members can collect for it on their phones. Be seated before 6:15 PM: the gavel opens the session on time.
5. Have a small bank statement CSV ready for the Treasurer's Bank Statement Match-Window step.
6. Hand Member Beta the large-print pages of the individual scripts.

Timetable of the 40-minute group phase

Minutes	Part
16	Flow 1 - The expense report pipeline, gate by gate
14	Flow 2 - The charitable donation request workflow
10	Flow 3 - The Flagged Hours Review gate
40	**Total**

Flow 1 - The expense report pipeline, gate by gate ·

16 minutes

Day in the Life of the council at the table

The council pays nothing until three different officers have signed, and then the Treasurer writes the check. Every persona stays in his own seat on his own laptop. Every laptop works on the one hub database, so a record saved on one laptop is on every laptop at once. The room walks the pipeline gate by gate: Member Alpha files a new report, and each officer works the seeded report already waiting at his own gate. Read in order, the five steps are one report's path from receipt to check.

Device: Every persona's own laptop, at his own seat

☐ **Step 1. Member Alpha** · Go to: **Active Desks > Member Desk > Open my expenses**

Click New expense report. Under Spent for choose Events and the Parish Parking Event. Add a line dated today: Ace Hardware, $18.40, "Zip ties and sign stakes". Click + Add receipt, attach a photo and click Submit for approval.

Expected result: The report is Submitted and waits for the Financial Secretary's payment request. Write its number in the Notes field.

NOTES

☐ **Step 2. FS User** · Go to: **Active Desks > Financial Secretary Desk > [■ FS Expense Audit Queue]**

Gate 1, the payment request. Find report 21 (Member Beta, Staples, $54.15), check its receipt and click Verify & Sign Expense.

Expected result: The row reads "Payment request issued" and leaves your desk for the Treasurer's coding.

NOTES

☐ **Step 3. Treasurer User** · Go to: **Active Desks > Treasurer Desk > [■ Treasurer Ledger Audit]**

Gate 2, the ledger coding. On report 22 (Historian User, Walgreens, $63.40) choose Council Operational Costs in Assign General Ledger Account, read the green [Inferred Budget: Automatically Mapped to Monthly Council Meetings] line, then click Categorize & Lock Expense.

Expected result: The row reads "Coded to the ledger" and leaves your desk for the Grand Knight's release.

NOTES

☐ **Step 4. GK User** · Go to: **Active Desks > Grand Knight Desk > Approved Expenses**

Gate 3, the final release. Click Final Release for Payment on report 23 (Member Alpha, Fred Meyer, $41.85).

Expected result: The row reads "Released to the Treasurer". Report 23 is Approved.

NOTES

☐ **Step 5. Treasurer User** · Go to: **Active Desks > Treasurer Desk > [■ Disbursed Check Registry]**

Gate 4, the check. Select report 13 (George Alvarez, Cash & Carry, $142.75), released in September. Type check number 1401 and click Record Payment Made by Check.

Expected result: Report 13 is Reimbursed and check 1401 appears in the payments-made history.

NOTES

Flow 2 - The charitable donation request workflow

14 minutes

Day in the Life of the council at the table

A food bank near the cathedral asked Member Alpha for help. He becomes its Knight Shepherd and files the request into the pooled vetting queue. A vetting officer, never the Shepherd, then claims a request, asks the Shepherd for what is missing and advances it to the council's vote. On his own laptop the Deputy Grand Knight vets the seeded Northeast Portland Senior Meals request, whose Shepherd is Member Beta.

Device: Every persona's own laptop, at his own seat

☐ **Step 1. Member Alpha** · Go to: **Active Desks > Member Desk > Propose or follow a charity grant**

Fill in the form: Organization or ministry name "Cathedral Neighbors Food Bank", a one-line Mission, a Mailing address, Relationship to the council "Local Nonprofit", Mission area "Community", Amount requested $350, Specific use "Groceries for 30 families". Click Save and submit for vetting.

Expected result: The request appears in your requests at the Vetting step. A vetter's questions reach you here, under Request More Info.

NOTES

☐ **Step 2. DGK User** · Go to: **Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board**

Open the drawer, find Northeast Portland Senior Meals ($400.00, Shepherd Member Beta) in the Triage queue and click Claim & Audit.

Expected result: The request is Claimed by Trustee with DGK User as its vetter. Claiming is the assignment handshake: the board and the Shepherd's tracker both show who vets it.

NOTES

☐ **Step 3. DGK User** · Go to: **Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board**

In the vetting drawer choose Request More Info and ask: "How many of the forty seniors live in our parish?"

Expected result: A private thread opens between you and the Knight Shepherd. Only the two of you see it.

NOTES

☐ **Step 4. DGK User** · Go to: **Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board**

Choose Food for Families (e.g., Lift Up) as the Target budget line and click Advance to vote. Then click Place on next agenda.

Expected result: A notice reads "Request #6 is a Proposed Motion for" the soonest Monthly meeting at least 10 days away (November 3, 2026).

NOTES

After the session

The council debates and votes on the request at that Monthly meeting. If it passes, the Grand Knight or Financial Secretary endorses it in the FS/GK Compliance Endorsements folder, and the Treasurer pays it from the Charitable Contribution Matches folder; neither the Shepherd nor the endorser writes the check.

Device: Not played in this session

Flow 3 - The Flagged Hours Review gate · 10 minutes

Day in the Life of the council at the table

Service hours feed the council's Supreme reports, so the platform holds an entry that crosses the council's limits (more than 1.0 hour past a scheduled shift, or more than 5.0 hours on one activity in a day) until the Grand Knight or the Deputy Grand Knight decides it. Member Alpha sees the hold on his own screen; the Deputy Grand Knight decides Alpha's seeded 6.5-hour Saturday entry on his.

Device: Every persona's own laptop, at his own seat

☐ **Step 1. Member Alpha** · Go to: **Member Actions Hub > Hour ledger tab**

Under Report time on a shift choose the first Lot attendants - Sunday shift (the day after the first Saturday) in Shift I worked. Set Hours to 7 and click Save shift hours.

Expected result: A notice says the 7 hours were sent to leadership review before they count toward your totals.

NOTES

☐ **Step 2. DGK User** · Go to: **Active Desks > Grand Knight Desk > Flagged Hours Review**

Open the Flagged Hours Review drawer. Read Member Alpha's Saturday entry (6.5 hours against a 4-hour shift) and its reason, then click Reject & Remove.

Expected result: The entry leaves the desk; its 6.5 hours never count.

NOTES

☐ **Step 3. Member Alpha** · Go to: **Member Actions Hub > Hour ledger tab**

Report the Sunday shift again with its 4 scheduled hours and click Save shift hours.

Expected result: A notice reads "Shift hours saved." Hours within the limits count at once.

NOTES

Appendix - Attendee Feedback Questionnaire

Fill in this form on screen or on paper and hand it to the facilitator. Rate each statement from 1 (disagree) to 5 (agree).

NAME (OPTIONAL)		PERSONA PLAYED	
DATE		OFFICE IN YOUR COUNCIL	

	1	2	3	4	5
1. The steps were easy to follow.	○	○	○	○	○
2. The screens used words I understand.	○	○	○	○	○
3. I found every module in a folder on my Active Desk, on the Member Actions Hub or on the phone tabs.	○	○	○	○	○
4. The expected results matched what I saw.	○	○	○	○	○
5. The approval steps match how our council handles money today.	○	○	○	○	○
6. I would use this platform for my office or my volunteering.	○	○	○	○	○

Which step was hardest, and why?

What did you expect to see that was missing?

Which words or labels were confusing?

What would stop your council from using the platform next month?

Anything else the team should know?
