Charity Grant Lifecycle

Vetting > Presentation > Payment Made

1 Propose

Any member (the Knight Shepherd)

Active Desks > Member Desk > Propose or follow a charity grant

Bring the organization, the amount and the reason. The Shepherd follows the request on his 3-step tracking notice.

2 Claim and vet

An officer or Trustee - never the Shepherd

Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board

Claim the request and check it. Request More Info opens a private thread with the Shepherd; Request Officer Input asks the officers.

3 Advance or decline

The vetting officer

Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board

Advance it to the council vote, or decline it with a reason. A declined request stops here.

4 On the agenda

The vetting officer - the 10-day rule

Active Desks > Grand Knight Desk > Charitable Grant Requests Vetting Board

Place on next agenda puts it on the soonest Monthly meeting at least 10 days away, as a proposed motion.

5 Council vote

The members at the meeting

Governance > Live Meeting Console

The Recorder's hand tally on the console. Decided Passed, Failed or Tabled.

6 Endorse and pay

FS or GK endorses; another finance officer pays - never the Shepherd

Active Desks > FS/GK Compliance Endorsements, then Treasurer Desk > [■■ Charitable Grants Registry]

FS/GK Compliance Endorsement, then Pay approved request: one check for the approved amount, charged to the budget line.

7 Follow up

The Trustees

Six months after filing

The Trustees are prompted for a status report on what the grant did.

Pilot hub: every laptop and phone works on one database on the hub laptop. Records are kept from session to session.
